Re: Proof of Appropriation Extension for Water Right No. CG4-00190-A(B)

Dear Mike Shane:

We received your request to extend the date your project will be fully developed from July 1, 2025, to July 1, 2040. This is your first extension request to fully develop your project and therefore put (up to) the quantities of water on your permit to full beneficial use.

Per RCW 90.03.320, we approve permit extensions for “good cause shown” and “as may be reasonably necessary, having due regard to the good faith of the applicant and the public interests affected.” For the reason(s) below, your permit extension request is approved:

- Municipal water supplier’s duty to serve the entirety of approved service area, as well as future demand projections.
- Development of the City’s conservation and water efficiency program including metering, leakage detection, and demand forecasting.

The new deadline to fully develop your project is July 1, 2035. This is also the deadline to submit the enclosed Proof of Appropriation of Water form.

Please note that we expect you to follow all provisions on your permit and any underlying documentation until your use is certificated. Non-compliance may result in enforcement orders and/or penalties and may delay the certification of your water right permit.
