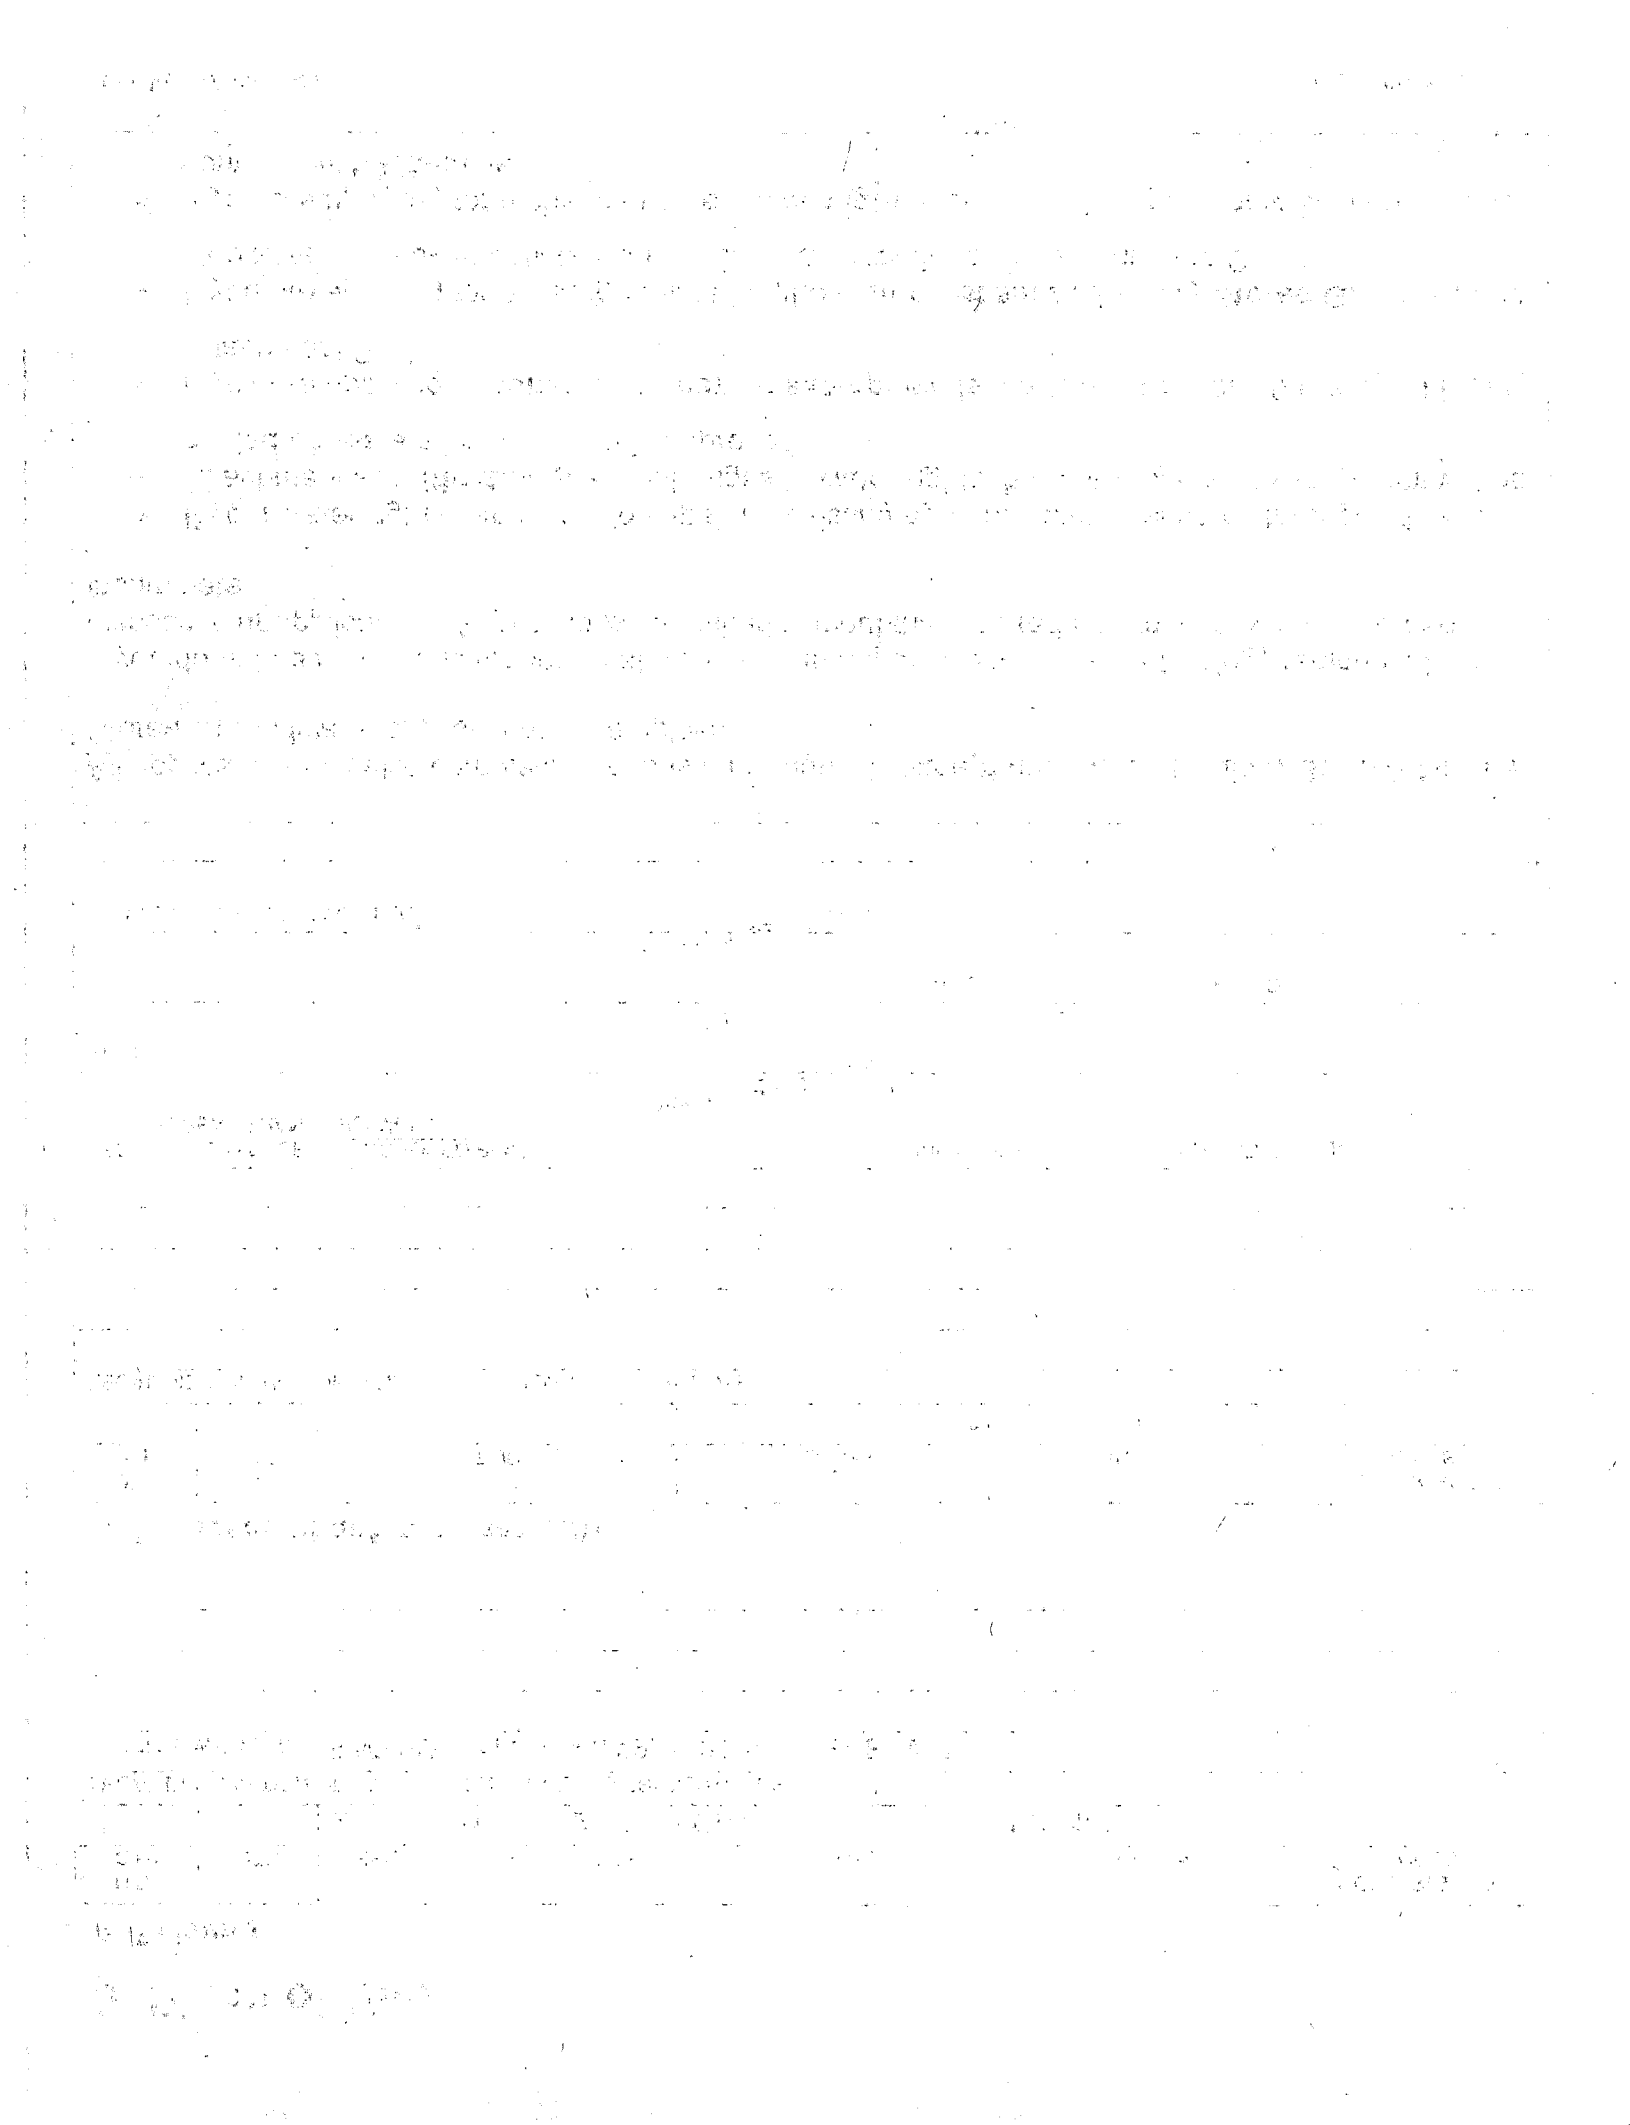
All applicants must also complete Sections 6 through 11, **except** drought and Quincy Basin Artificially Stored Groundwater applications (see below).

If you do not have the required information, make an appointment with your Ecology regional office to discuss your application. Applications submitted without the required information will be returned as incomplete.

- If your water right change would impair an existing right, complete Section 6 through 11, and Attachment A, **mitigation plan**. Changes to water rights that will impair an existing right will be denied unless a mitigation plan is approved.
- If you are applying to **consolidate permit-exempt wells**, complete Sections 6 through 11, and Attachment B.
- If you are applying for a change related to the **Quincy Basin Artificially Stored Groundwater**, stop here. Complete only Sections 7 & 11, and continue with Attachment C.
- If you are applying for a change related to **drought**, stop here. Complete only Section 11, and continue with Attachment D.



Certain applications may incur a Real Estate Excise Tax liability for the seller of the water rights. The Department of Revenue has requested notification of potential taxable water right related actions and therefore may be provided with a copy of this request. For further information, contact:

7. Related Water Rights

7.1 Related Water Rights

- QB-1235
- QB-1275
- QB-1418
- QB-1483
- QB-1567

7.2 Beneficial Use

The related water rights have historically been exercised for the annual irrigation of agricultural row crops. Water has been applied during the growing season to support crop production and meet seasonal irrigation requirements within the established places of use.

7.3 Showing of Compliance

Not applicable

Attachment C: Quincy Basin Change Authorizations

C.1 Nature and intent of the proposed change

The proposed change seeks authorization to add a comingled point of withdrawal for agricultural irrigation. The additional well will improve water supply reliability while maintaining the existing authorized instantaneous withdrawal rates and annual water quantities. No increase in the authorized water rights is proposed.

C.2 Summarize whether the previously authorized changes have been completed

Not applicable. The project is complete, and the water right is in full beneficial use. All development requirements have been satisfied.
