DATE OF APPLICATION	PRIORITY DATE
April 18, 2017	June 30, 1873

WATER SOURCE:	CROP:
Coleman Creek	Hay / Pasture
INSTANTANEOUS QUANTITY:	ANNUAL QUANTITY:
0.24 cfs	100 a-f/yr

PERIOD OF USE:
March 15 through October 15

PLACE OF USE:	PURPOSE OF USE:
That portion of the SE¼ of Section 4, T. 17 N., R. 19 E.W.M. described as follows: Beginning at the south quarter corner of said section; thence N 1°50' W along the centerline of the county road 2637.43 feet; thence N 86°24'45" E 784.04 feet to the true point of beginning; thence N 88°24'25" E 1003.16 feet; thence S 5°21'30" W 1170.17 feet; thence N 77°00'50" W 1022.28 feet; thence N 6°27'10" E 913.33 feet; to the true point of beginning.	Irrigation of 24 acres

IRRIGATION METHOD:
Sprinkler irrigation

CONSUMPTIVE USE CALCULATION:
Under RCW 90.03.380 this transfer does not require an Annual Consumptive Quantity calculation (ACQ) because the change does not seek to irrigate additional acreage. The crop to be irrigated at the new place of use is hay / pasture.

NARRATIVE DESCRIPTION OF PROJECT:
<p>The water right (<i>Acquavella</i> Court Claim No. 00499) originally authorized surface water diversion from Coleman Creek for the purposes of irrigation of 24 acres. The original point of diversion for 0.24 cfs, 100 acre-feet per year was from a point on Coleman Creek located within the NW¼SE¼ of Section 4, T. 17 N., R. 19 E.W.M., Kittitas County, Washington, for the irrigation of 24 acres of land located within Section 4, T. 17 N., R. 19 E.W.M. in Kittitas County, Washington. The applicant proposes to change the point of diversion of said water right to a point located 2023 feet north and 1055 feet east from the center of Section 4, being within the NE¼NW¼NE¼ of Section 4, T. 17 N., R. 19 E.W.M., Kittitas County, Washington.</p> <p>Attached hereto as Exhibit A is a Kittitas County tax parcel map on which the current and proposed points of diversion are identified. This new diversion point will be a consolidation of diversion points for this right and a companion application (KITT-17-03) and will allow the Applicant to transport the water to the authorized place of use in a buried PVC pipe. The new point of diversion is an existing diversion point that is used by the Applicant's father. The result will be the removal of two (2) withdrawal facilities.</p>

EXHIBIT A

2017-67
