NARRATIVE DESCRIPTION OF PROJECT:

The project is located approximately 0.24 miles from the Yakima river in a “Yellow” area as noted on Ecology’s current Mitigation Suitability Map (see attached map).

The requestor/applicant proposes to offset the 0.092 ac-ft/yr of consumptive use for the project (1 residential connection) with 0.092 ac-ft/yr of mitigation from Trust Water Right No. CS4-01968sb11a(Bb).

Review of the local area hydrogeology suggests that the requested withdrawals will impact the Yakima River and the proposed withdrawals are not anticipated to result in severe pumping interference or adverse impacts to existing water users.
