NARRATIVE DESCRIPTION OF PROJECT:
<p>This is a seasonal change application to change a portion of the place of use and point of diversion of S4-83449-J upstream to the applicant's property. The applicant's property is also served water from the Emerick Ditch, S4-83403-J that has a priority date of December 20, 1905, which is currently curtailed. This seasonal change will allow the applicant to continue to irrigate a portion of his property while S4-83403-J is curtailed. The Yakima County Superior Court has approved similar upstream moves from the Nile Ditch Company in the past. This upstream move could only affect one consumptive surface water right, S4-83398-J. There is no regulator history for S4-83398-J not being fulfilled. Ecology believes that this transfer will not impair any existing rights.</p>
