NARRATIVE DESCRIPTION OF PROJECT:
<p>This is a seasonal change application to change a portion of the place of use and point of diversion of S4-83464-J upstream to the applicant's property. The applicant's property is also served water from S4-83404-J that has a priority date of October 10, 1906, which is currently curtailed. This seasonal change will allow the applicant to continue to irrigate a portion of his property while S4-83404-J is curtailed. Yakima County Superior Court approved Orders Pendente Lite moving water from the Nile Ditch Company to the applicants property in 2005 and 2015. There are only two consumptive surface water rights, S4-83398-J and S4-84663-J, in the reach between the current and proposed place of use. No regulator history exists for S4-83398-J not being fulfilled. The claimant name for S4-84663-J is the United States Bureau of Reclamation on behalf of the United States Forest Service, and has a priority date of May 10, 1905. Ecology believes that this transfer will not impair any existing rights.</p>
