DATE OF APPLICATION 4/13/2021

WATER SOURCE: S4-83449-J Surface Water Diversion from the Naches River. Proposed additional diversion from a pond in continuity with the Naches River.	CROP: Dust control / Pasture
INSTANTANEOUS QUANTITY: 0.08 cfs	ANNUAL QUANTITY: 12 ac-ft/yr
PERIOD OF USE: Until October 15, 2021.	
PLACE OF USE: Yakima County Parcel No. 151503-13404	PURPOSE OF USE: Irrigation of 3 acres

NARRATIVE DESCRIPTION OF PROJECT: <p>This application is very similar to the seasonal application we processed last year, August 2020. However, last year's application was for deficit irrigation. This year, the proposal calls for fallowing three (3) irrigated acres at the existing place of use and irrigating three (3) acres at the proposed additional place of use. Therefore, this year's proposal is a much-preferred one for one transfer.</p> <p>This is a seasonal change application to change a portion of S4-83449-J in order to add a new point of diversion and add a new place of use. The existing point of diversion is upstream, 450 feet north and 350 feet east from the south quarter corner of Section 21, within the SW 1/4 SW 1/4 SE 1/4 of Section 21, T. 16 N., R. 15 E.W.M., of the proposed additional point of diversion. The applicant's property does not currently have water rights. This seasonal change will allow the applicant to continue to irrigate a portion, 3 acres, of his 5 acre parcel. The applicant has 5 horses that he feeds hay and grains year round. This water will be utilized in the horse corral area for dust control and the propagation of pasture. This seasonal change will result in the fallowing of 3 acres from Yakima County Parcel No. 151628-43401. There is no regulator history for S4-83398-J not being fulfilled. Ecology believes that this transfer will not impair any existing rights.</p>
